

TheoryEngine::combineTheoriesTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

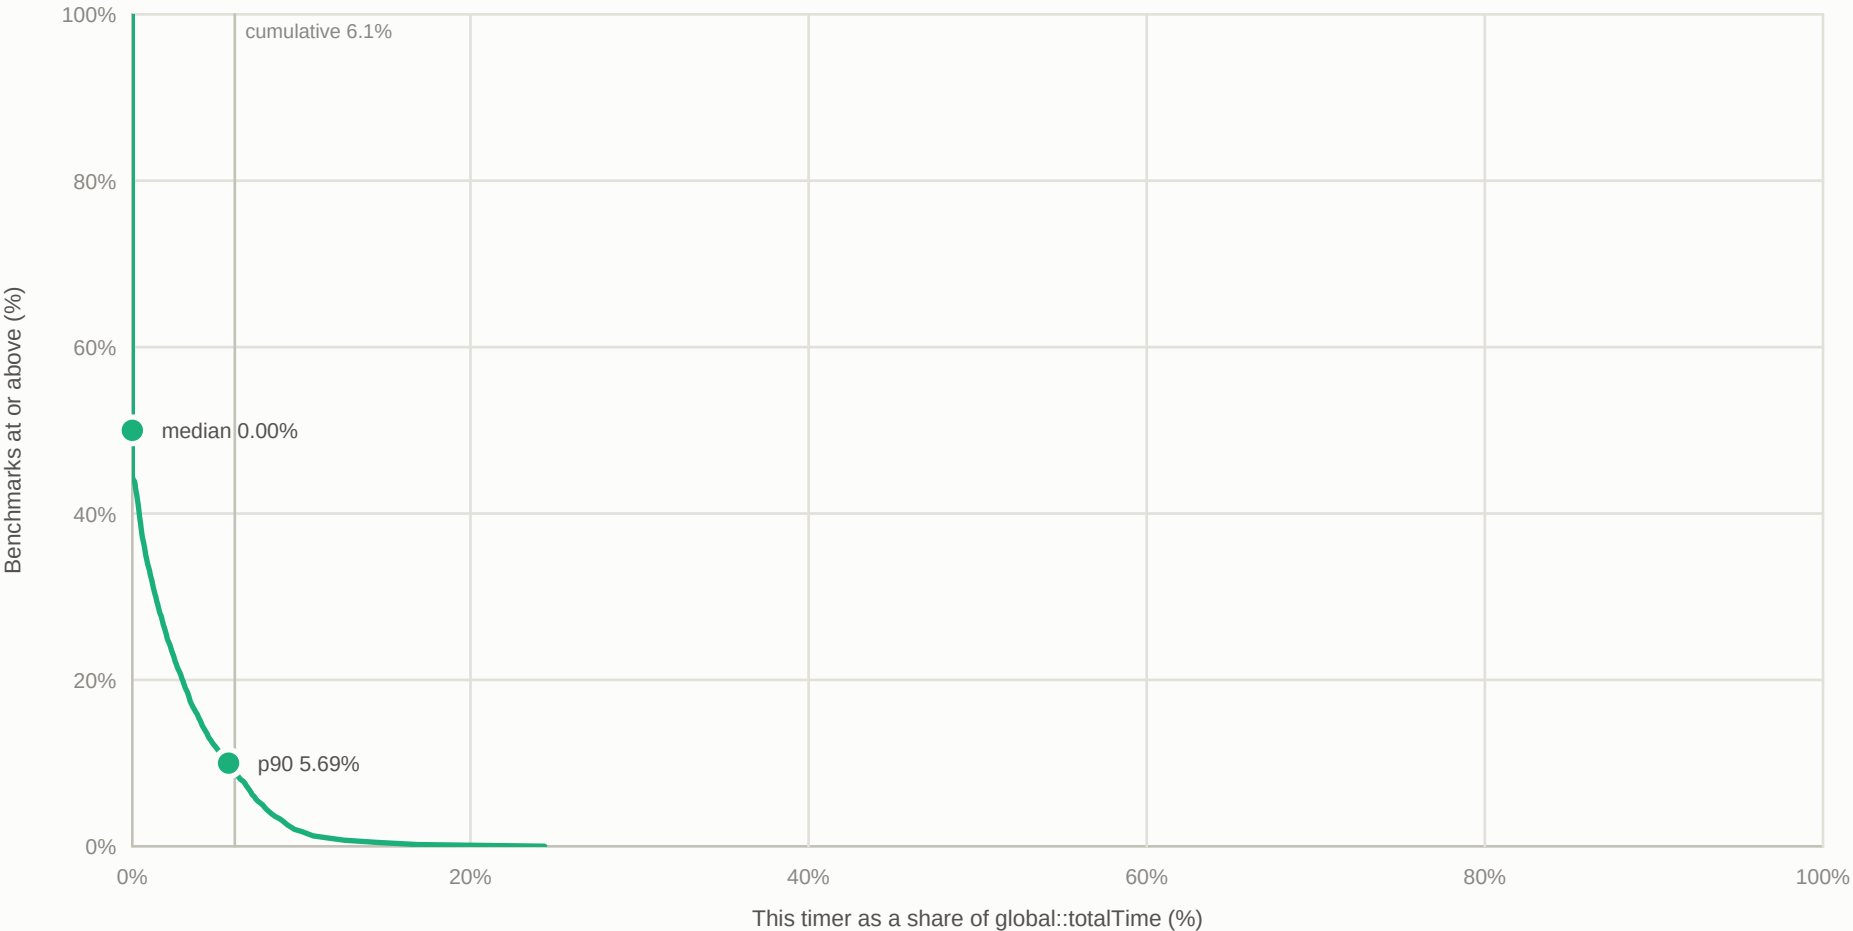

theory::uf::checkTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

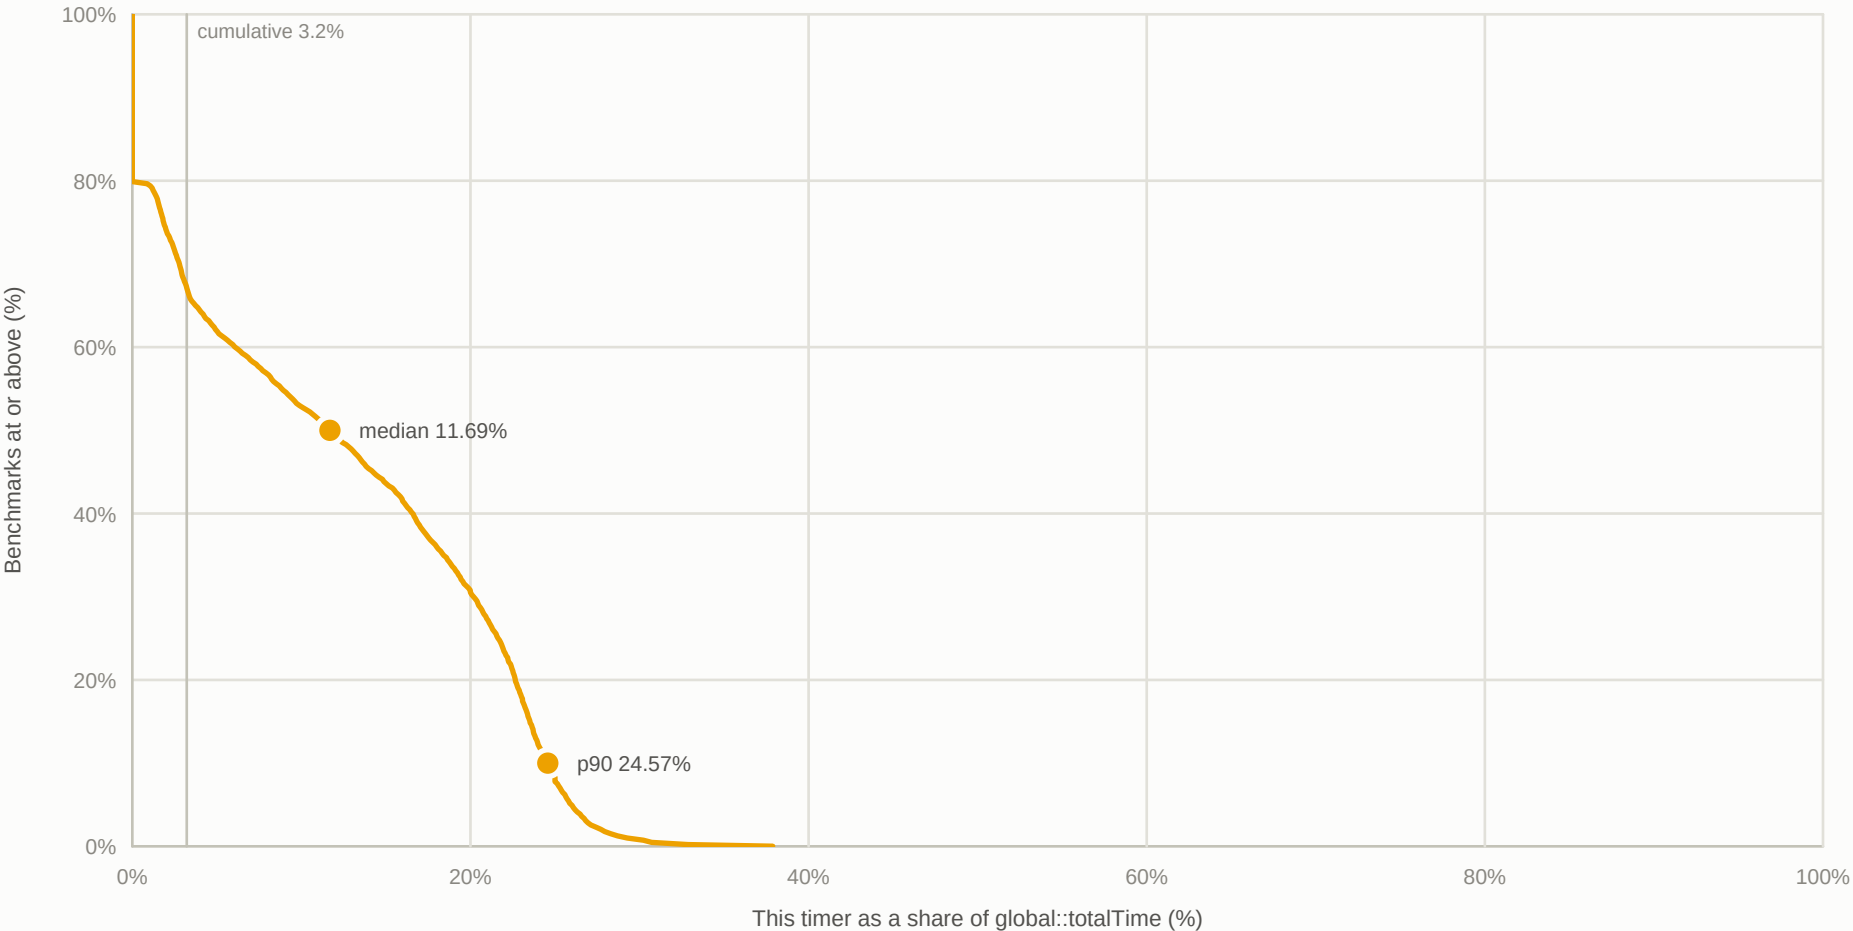

theory::datatypes::checkTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

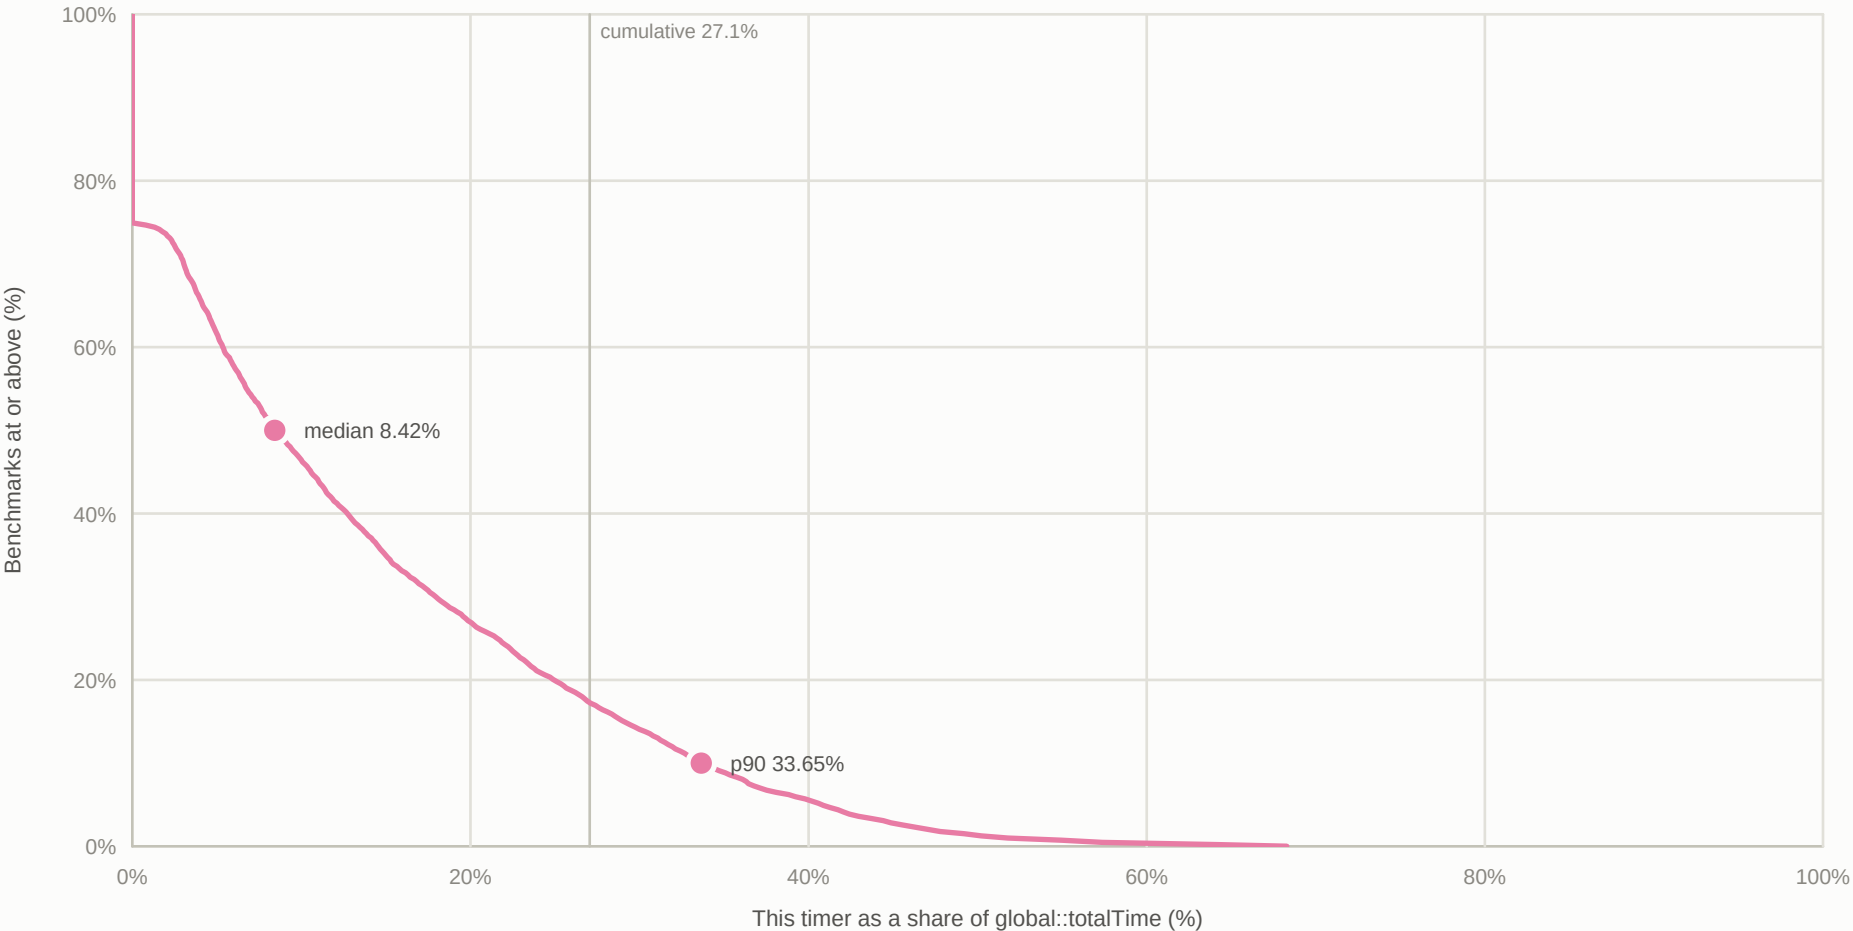

prop::CnfStream::cnfConversionTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

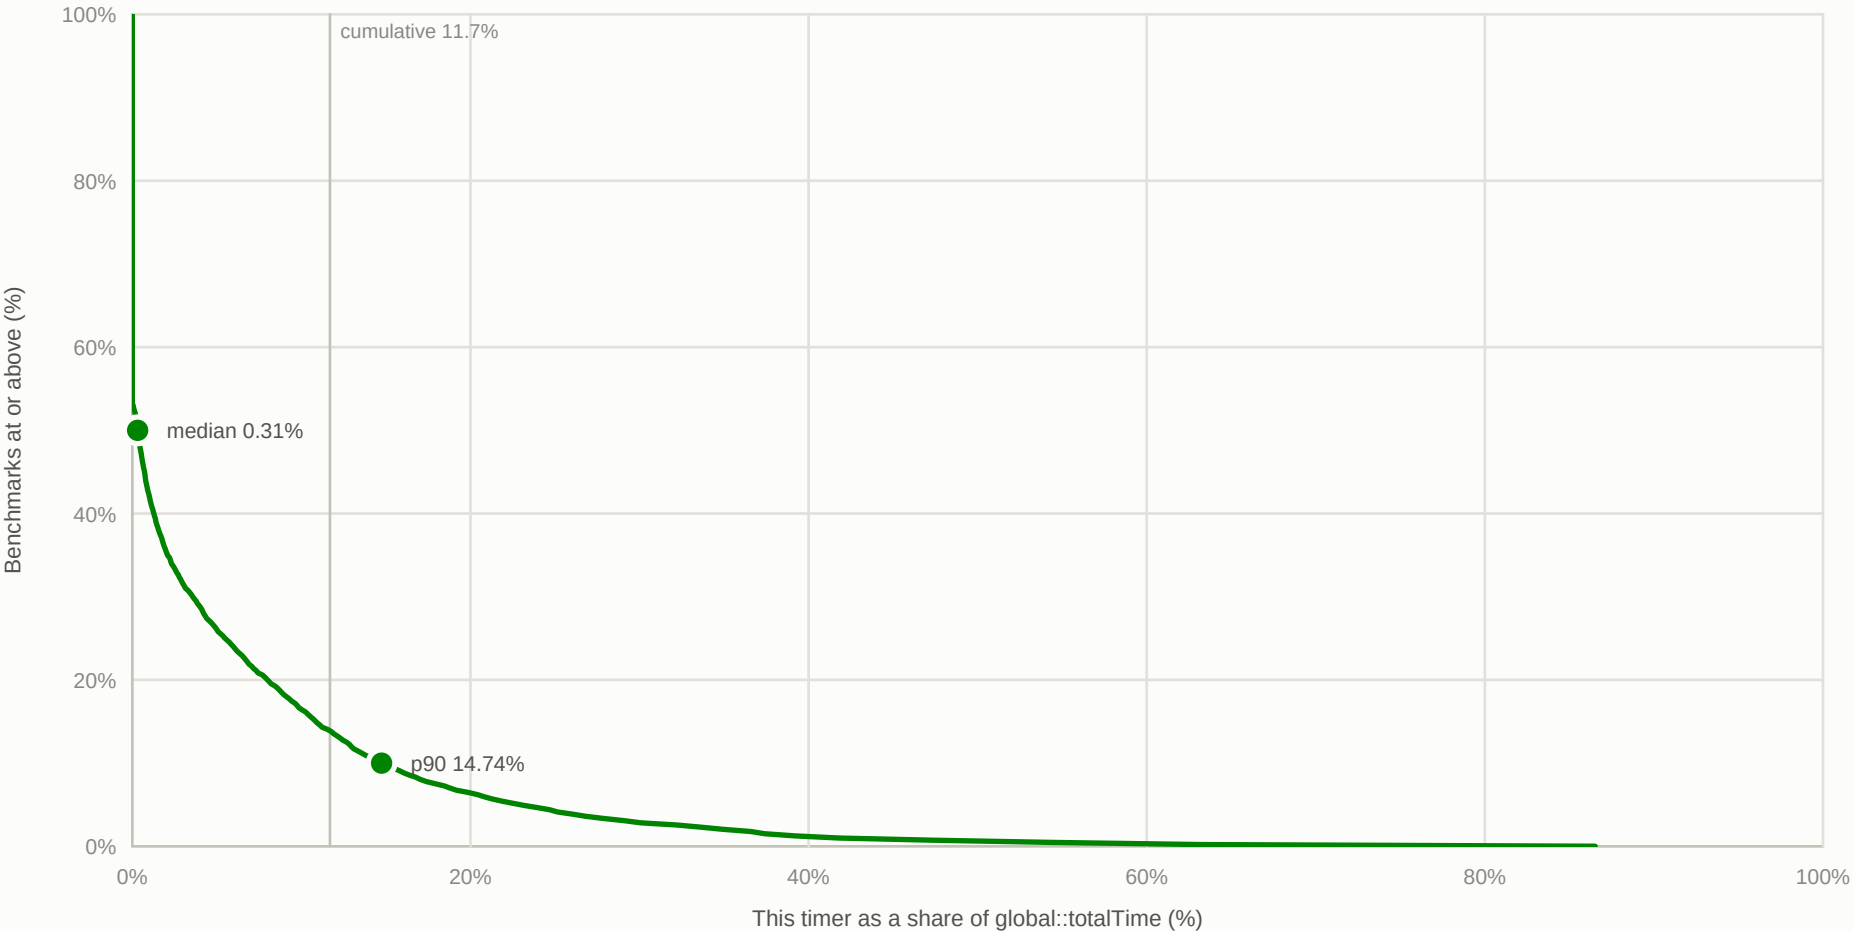

theory::QuantifiersEngine::time_ematching

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

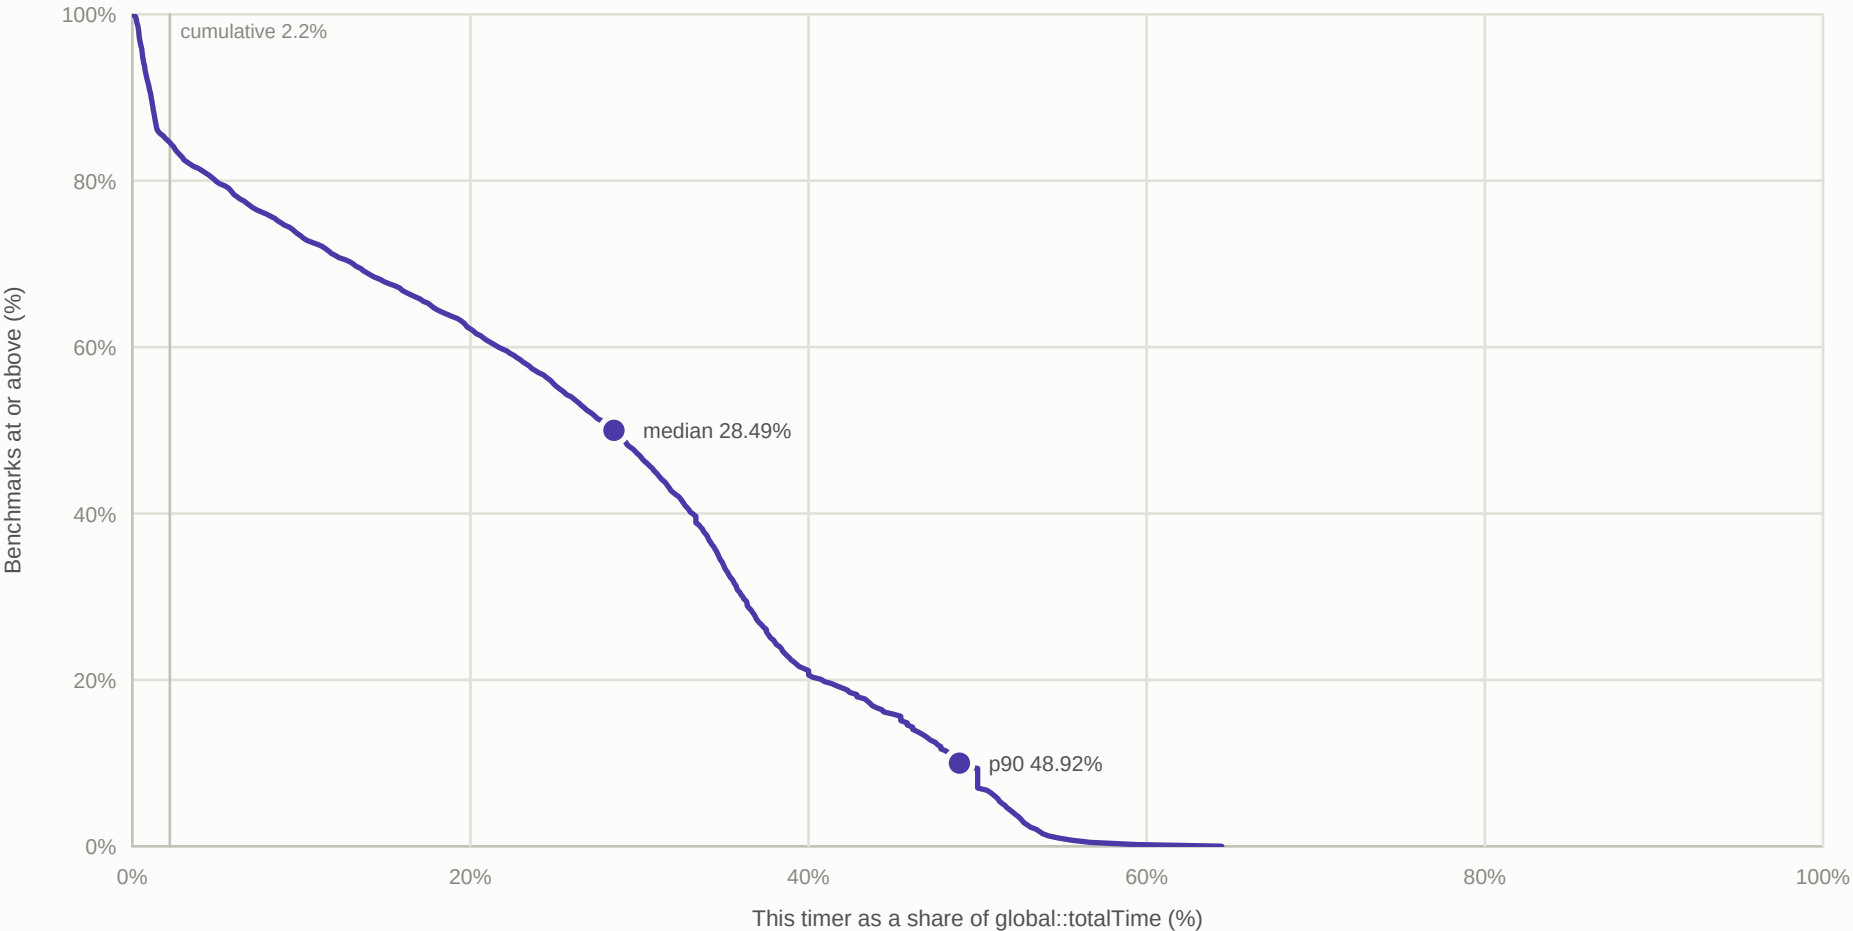

theory::arith::checkTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

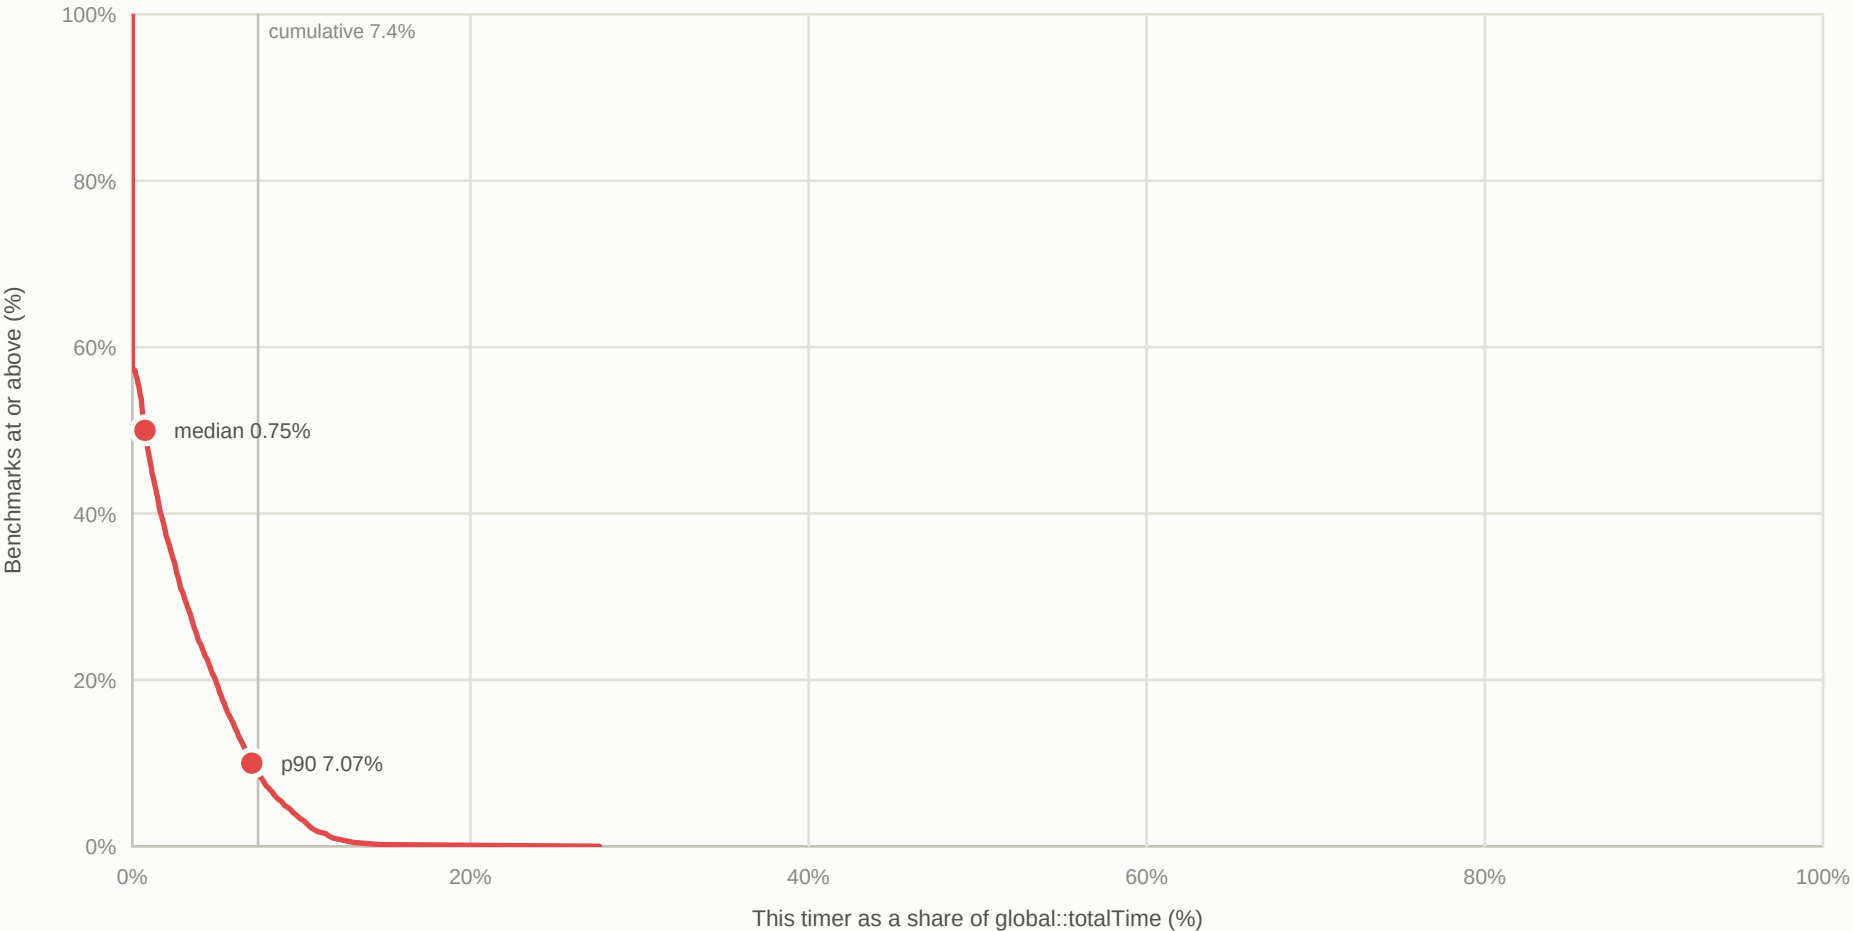

smt::SolverEngine::processAssertionsTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

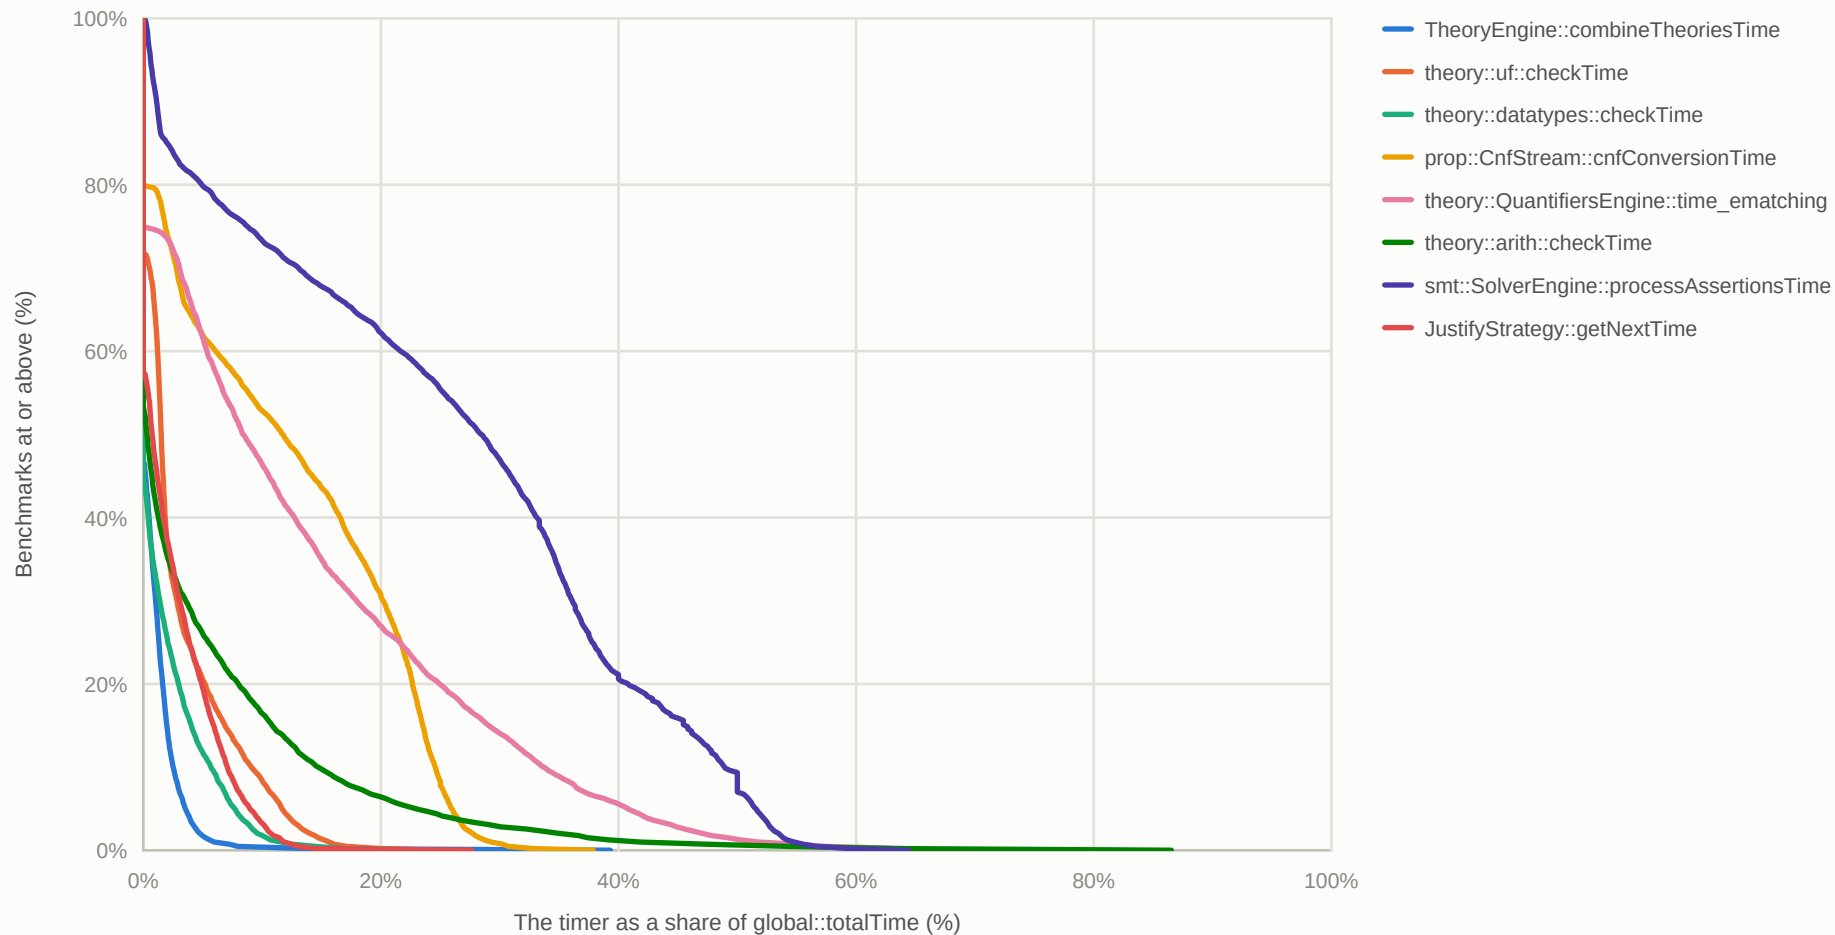

JustifyStrategy::getNextTime

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, this timer was at least x% of total time.

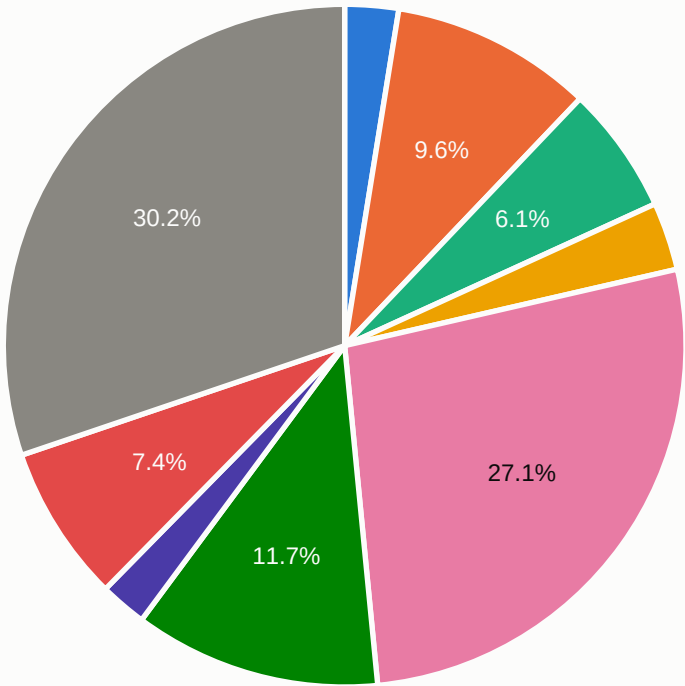

All timers

Share of global::totalTime per benchmark. A point (x, y) reads: for y% of the 6,124 benchmarks, that timer was at least x% of total time.

Cumulative time by timer

Total global::totalTime over all included runs, 25,126 s. Misc is the 30.2% of total time no timer above accounts for.
